## Manus and Nauru Regional Processing Centre Self-Harm statistics FY2016-17.

In the 2016-17 Financial Year there were 58 self-harm related incidents in Manus and Nauru RPC's. Incidents recorded as self-harm in the offshore incident reporting system include any incident by a person where there was a real or perceived attempt to hurt themselves. These incidents range in their level of severity, and include incidents where no injury occurred.

This is further detailed in the below table;

Manus and Nauru RPC Self-Harm FY2016-17

Location	Self Harm*
Manus RPC	42
Nauru RPC	16
Total	58

*\* Table1: Only incidents that were presented to IHMS\* and recorded are included in the above.\* International Health and Medical Services.*
