

Integrated Cargo System Production Report February 2008

Date Prepared: 26 March 2008
Prepared by: Applications Branch, Customs IT

Production Report – February 2008

- 1 Yearly Overview 3
 - 1.1 System Activity 3
 - 1.1.1 Summary 3
 - 1.1.2 Monthly Successfully Processed ICS Messages (EDI and CI) 4
 - 1.1.3 Monthly Successfully Processed ICS Messages (Imports and Exports)..... 4
 - 1.1.4 Successfully Processed ICS Messages by Category (1-Mar-07 to 29-Feb-08)..... 5
 - 1.1.5 Imports Successfully Processed ICS Messages by Type (1-Mar-07 to 29-Feb-08) 5
 - 1.1.6 Exports Successfully Processed ICS Messages by Type (1-Mar-07 to 29-Feb-08) 6
 - 1.2 EDI Message Initial Response Times 7
 - 1.2.1 Monthly EDI Message Initial Response Time..... 7
 - 1.2.2 Monthly EDI Message Initial Response Time and Message Volume..... 7
 - 1.2.3 Monthly EDI Message Initial Response Time Breakdown 8
 - 1.3 Service Availability..... 9
 - 1.3.1 Service Available – External..... 9
 - 1.3.2 Service Available - Key Systems..... 9
 - 1.3.3 Service Fully Operational 10
 - 1.3.4 Service Fully Operational - Key Systems 10
- 2 Monthly Detail (Feb 08) 11
 - 2.1 System Activity 11
 - 2.1.1 Summary 11
 - 2.1.2 Inbound Message Volume by Day (Feb 08)..... 11
 - 2.1.3 Outbound Message Volume by Day (Feb 08) 12
 - 2.1.4 Production - Daily Successfully Processed ICS Messages (Feb 08)..... 12
 - 2.1.5 Exports Successfully Processed ICS Messages by Type (Feb 08) 13
 - 2.1.6 Imports Successfully Processed ICS Messages by Type (Feb 08) 13
 - 2.2 EDI Message Initial Response Times 14
 - 2.2.1 Daily EDI Message Initial Response Time (Feb 08)..... 14
 - 2.2.2 Daily EDI Message Initial Response Time and Message Volume (Feb 08)..... 14
- 3 Service Issues and Impacts..... 15
 - 3.1 Outages 15
 - 3.2 Not Performing as Expected..... 16

1 Yearly Overview

1.1 System Activity

1.1.1 Summary

Activity Summary 1-Mar-07 to 29-Feb-08		Total
Exports	Inbound Messages Received by ICS	4,437,404
	Outbound Messages Sent to Clients	5,536,001
Imports	Inbound Messages Received by ICS	23,349,905
	Outbound Messages Sent to Clients	78,833,499

The table above shows activity based on the volume of messages sent by Industry to ICS (Inbound) or sent by ICS to Industry (Outbound), which are counts of messages from the ICS perspective. As such amendments, duplicates, requests for retransmission, etc are included. For example, an inbound Full Import Declaration, which was then amended twice during the reporting period, would appear as 3 Inbound messages.

Request for Status messages submitted by Customs as part of the Heartbeat Monitoring activity (approx. 240,000 messages) are included in the above figures, showing under Exports.

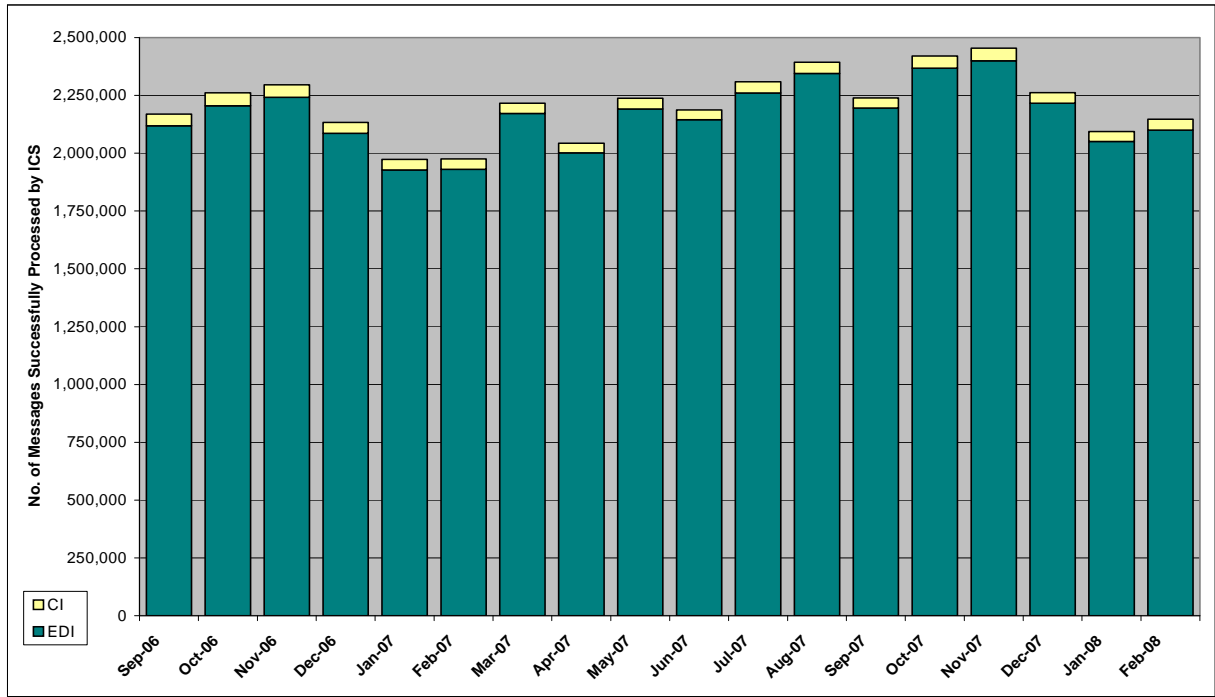

As at midnight **Fri 29 Feb 08**, the number of messages successfully processed by ICS since implementation was:

Exports	14,285,301
Imports	52,150,027
Total	66,435,328

Note:

"Successfully Processed" messages, are messages received by ICS, either by EDI or CI, for which a response message was sent, including error messages.

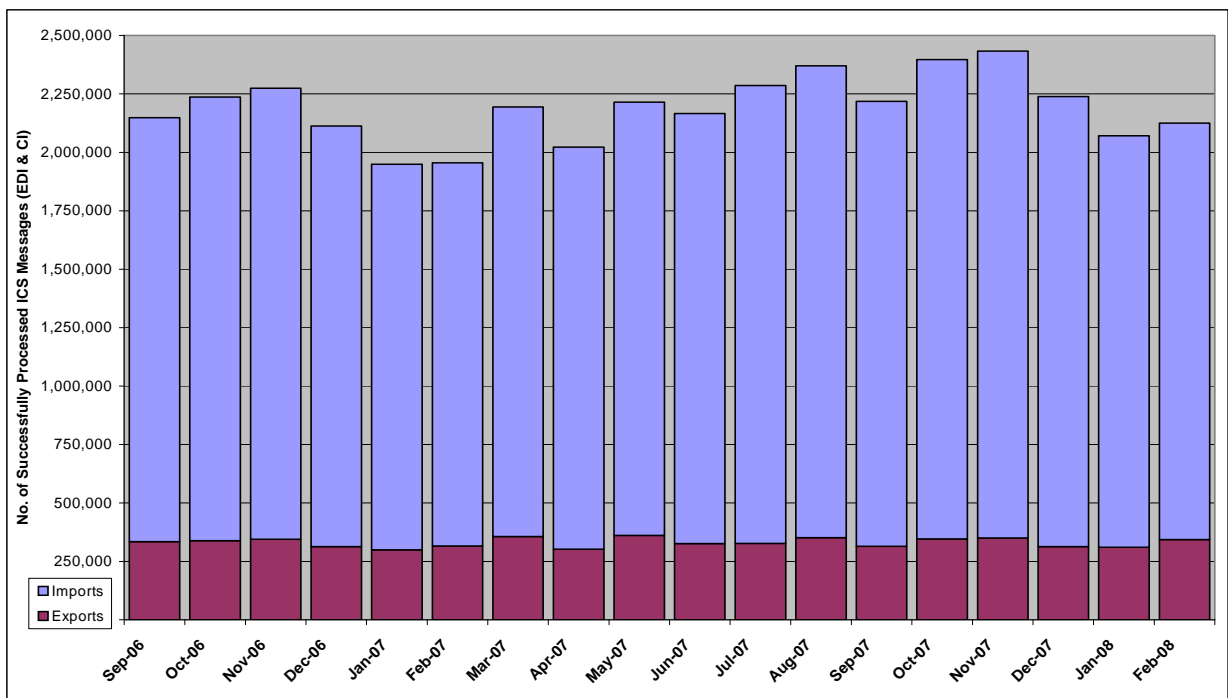

1.1.2 Monthly Successfully Processed ICS Messages (EDI and CI)

Note:

“Successfully Processed” messages are those received by ICS, for which a response message was sent, including error messages.

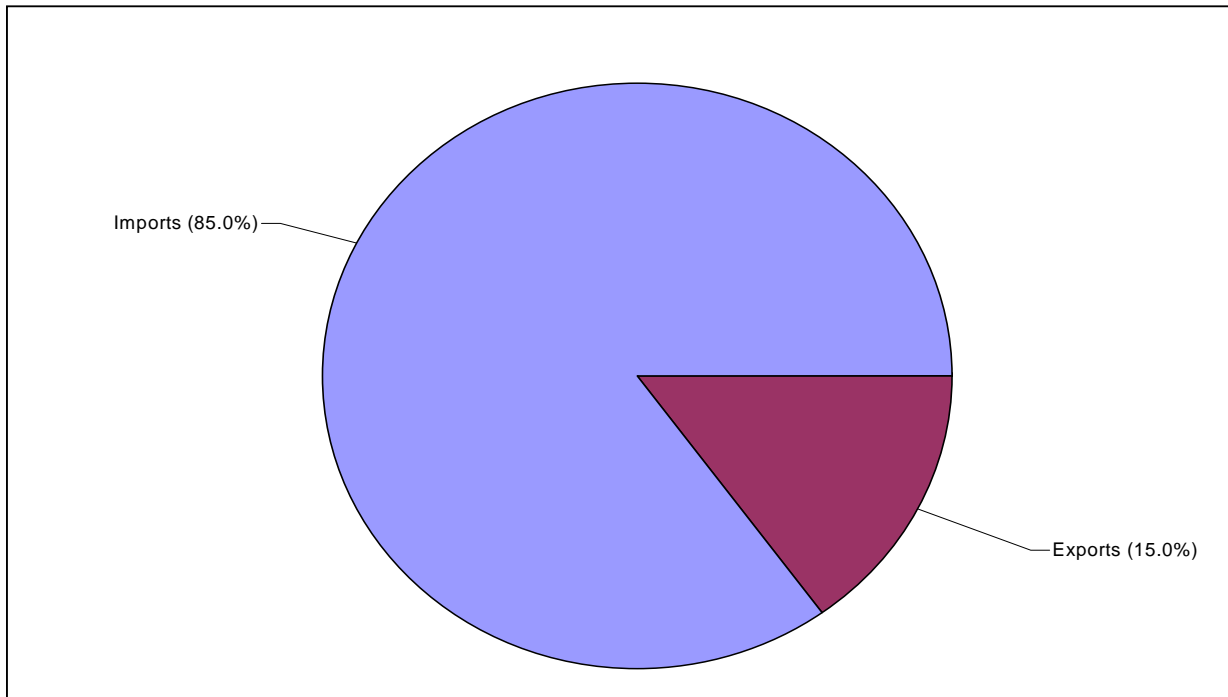

1.1.3 Monthly Successfully Processed ICS Messages (Imports and Exports)

Note:

“Successfully Processed” messages are those received by ICS, for which a response message was sent, including error messages.

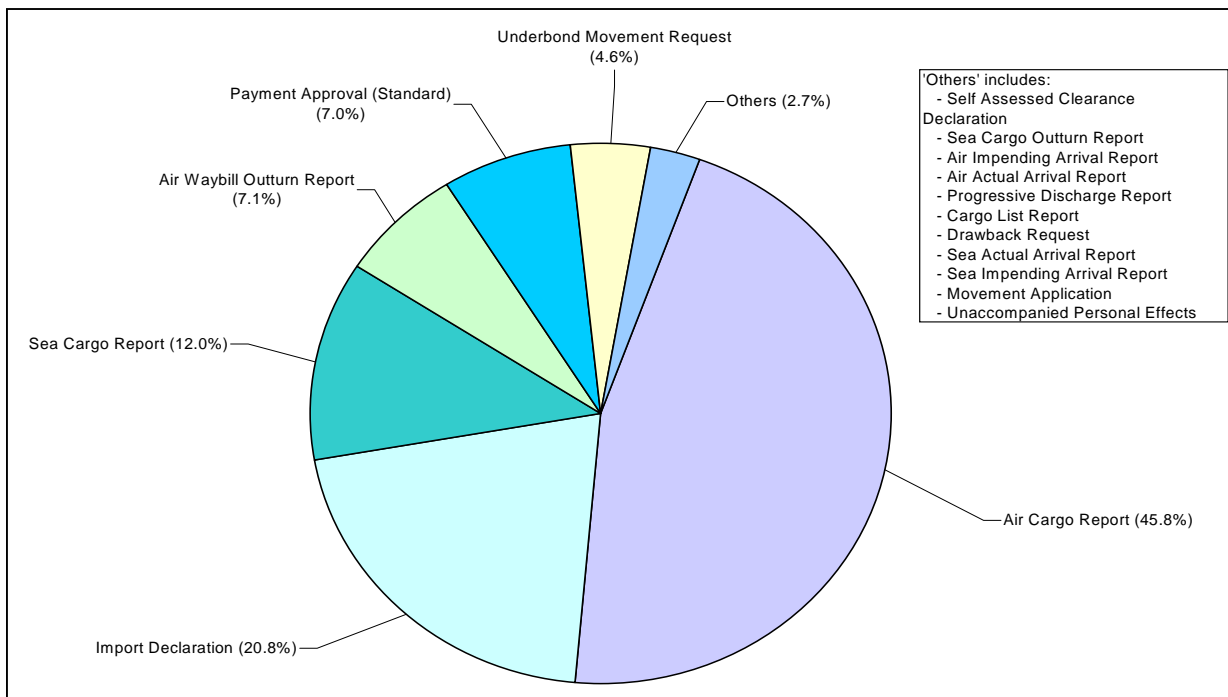

1.1.4 Successfully Processed ICS Messages by Category (1-Mar-07 to 29-Feb-08)

Note:

“Successfully Processed” messages are those received by ICS, for which a response message was sent, including error messages.

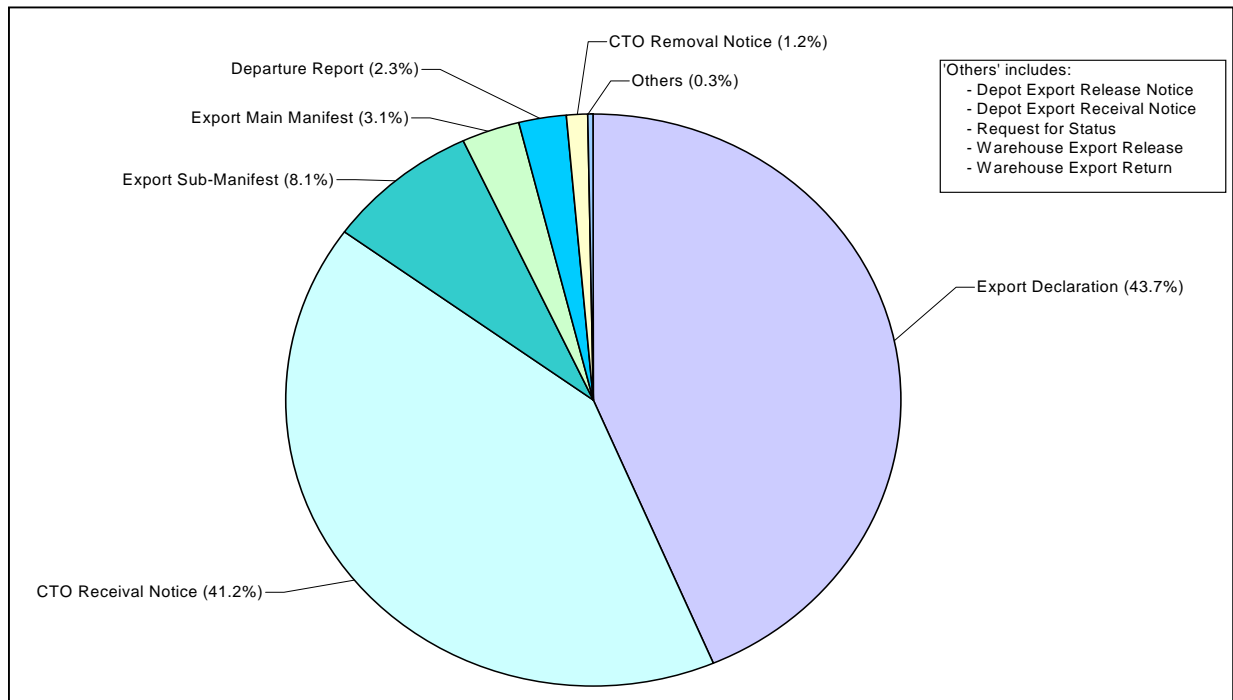

1.1.5 Imports Successfully Processed ICS Messages by Type (1-Mar-07 to 29-Feb-08)

Note:

“Successfully Processed” messages are those received by ICS, for which a response message was sent, including error messages.

1.1.6 Exports Successfully Processed ICS Messages by Type (1-Mar-07 to 29-Feb-08)

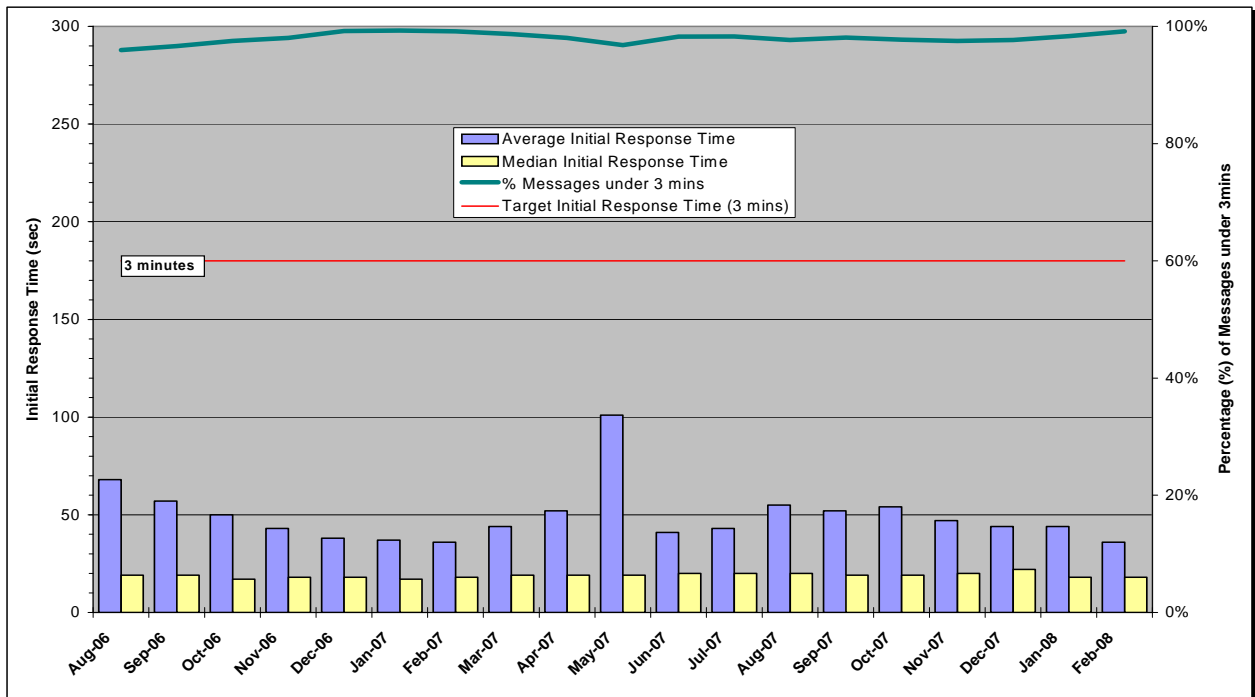

Note:

“Successfully Processed” messages are those received by ICS, for which a response message was sent, including error messages.

1.2 EDI Message Initial Response Times

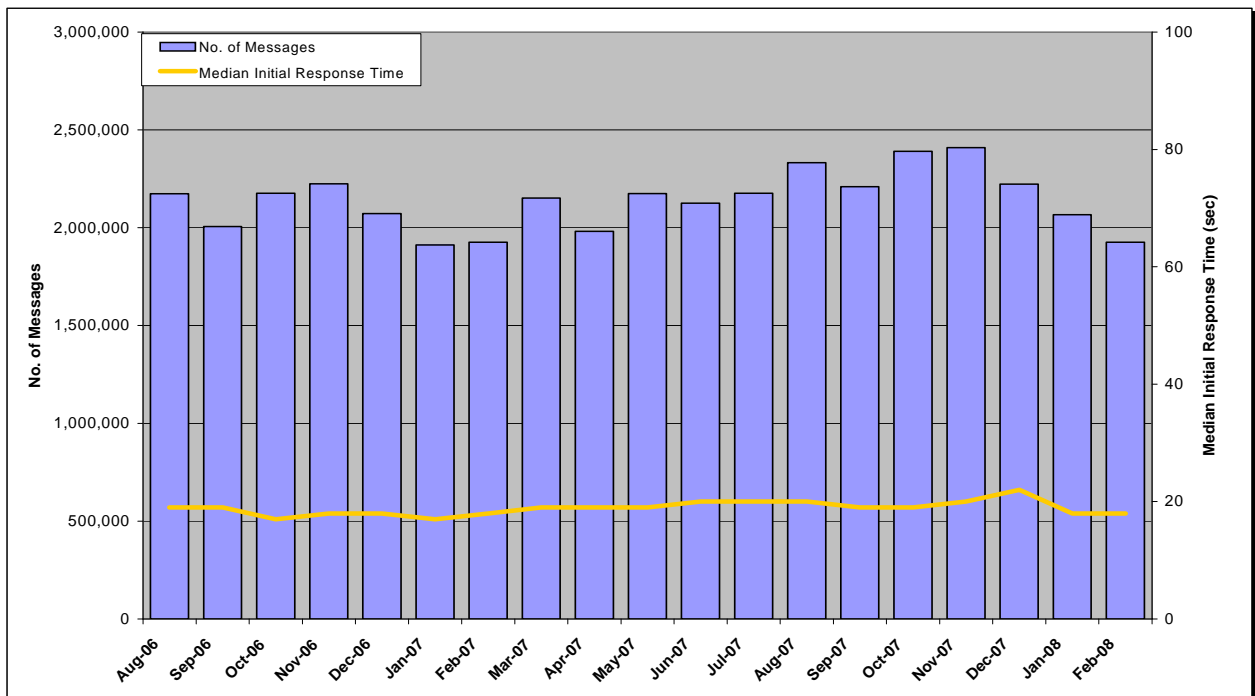

1.2.1 Monthly EDI Message Initial Response Time

The chart above shows Initial Response time for all messages as an average and median for the month, as well as the percentage of messages under the target of 3 minutes.

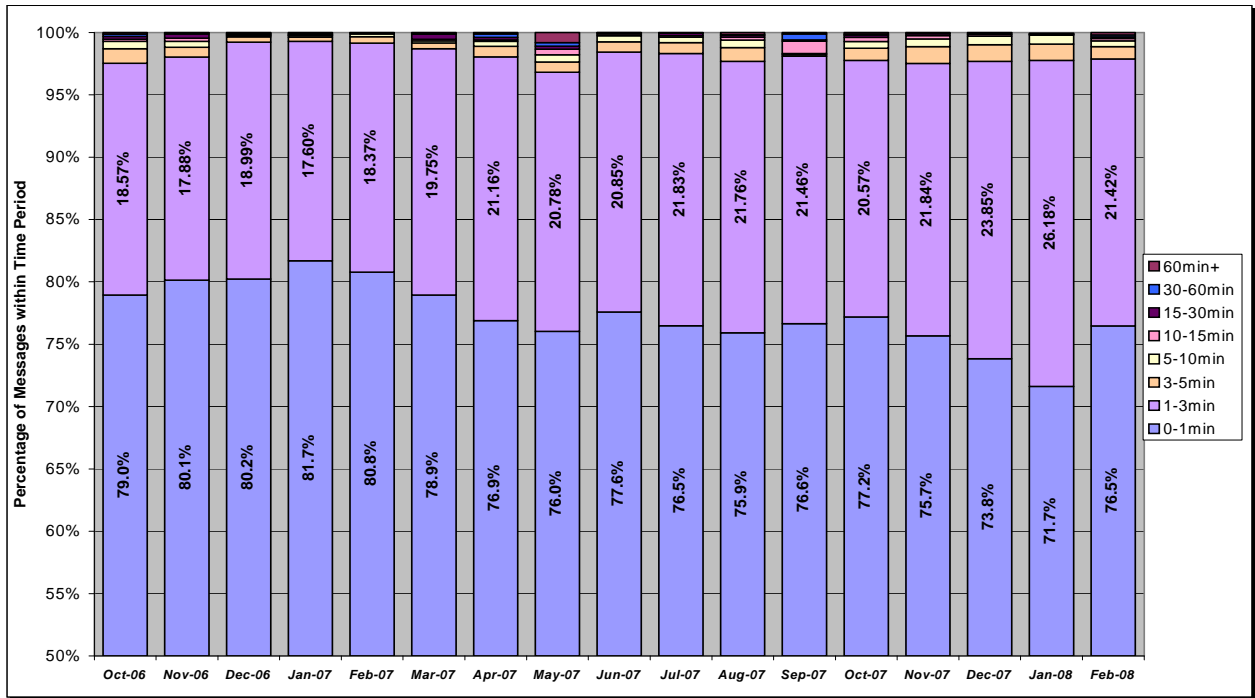

Initial Response time is defined as the time from when the message is received to the corresponding initial advice message leaving Customs.

1.2.2 Monthly EDI Message Initial Response Time and Message Volume

The chart above shows the median Initial Response Time by month for all messages, as well as the number of messages received. Initial Response time is defined as the time from when the message is received to the corresponding initial advice message leaving Customs.

1.2.3 Monthly EDI Message Initial Response Time Breakdown

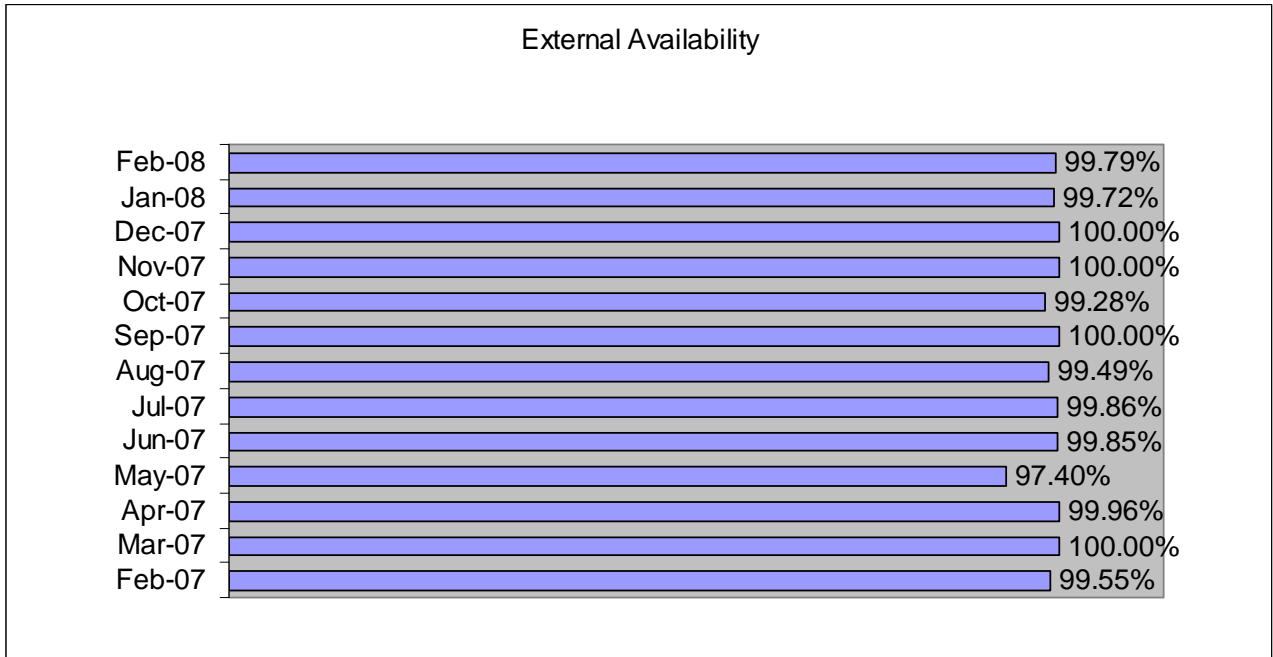

The chart above shows the percentage of all messages whose Initial Response time fell within the defined time periods. Initial Response time is defined as the time from when the message is received to the corresponding advice message leaves Customs.

1.3 Service Availability

1.3.1 Service Available – External

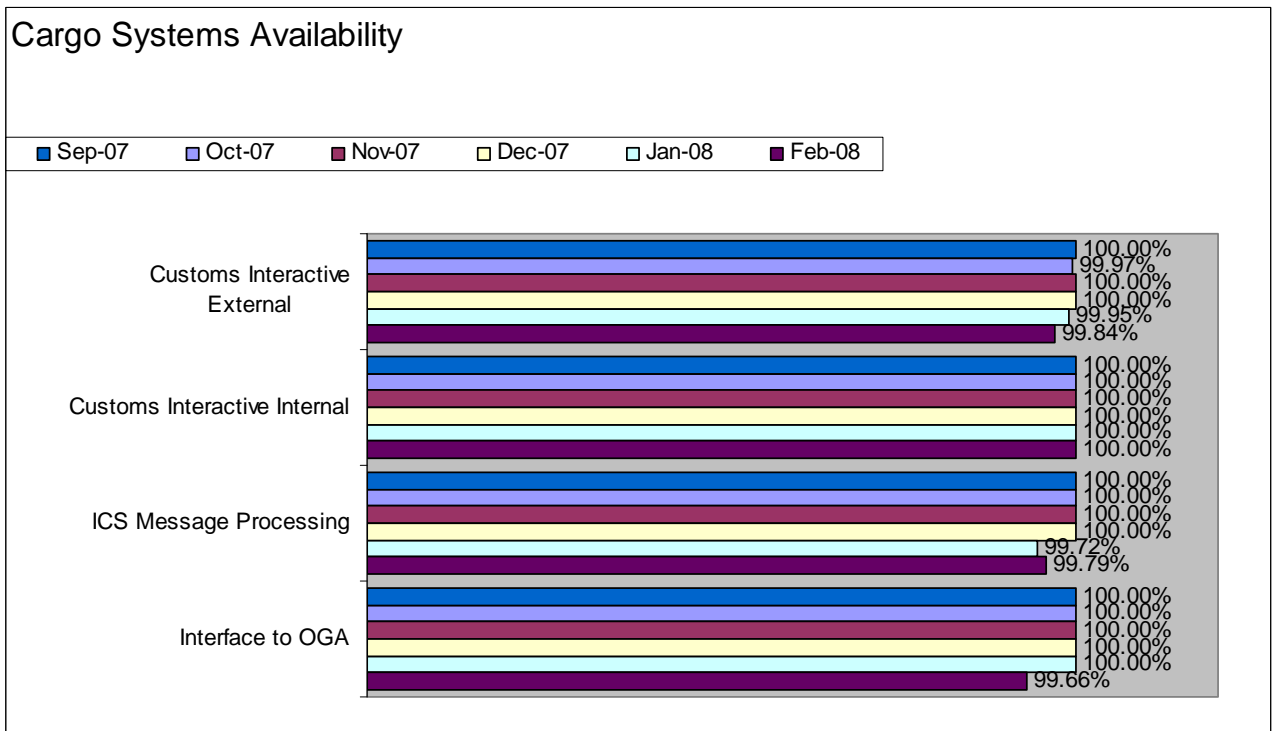

Average availability of services to Customs clients for the 12 months 1-Mar-07 to 29-Feb-08 was 99.61%.

Note:

Electronic cargo systems availability to Customs clients – Target is 99.7% (availability against a typical work day).

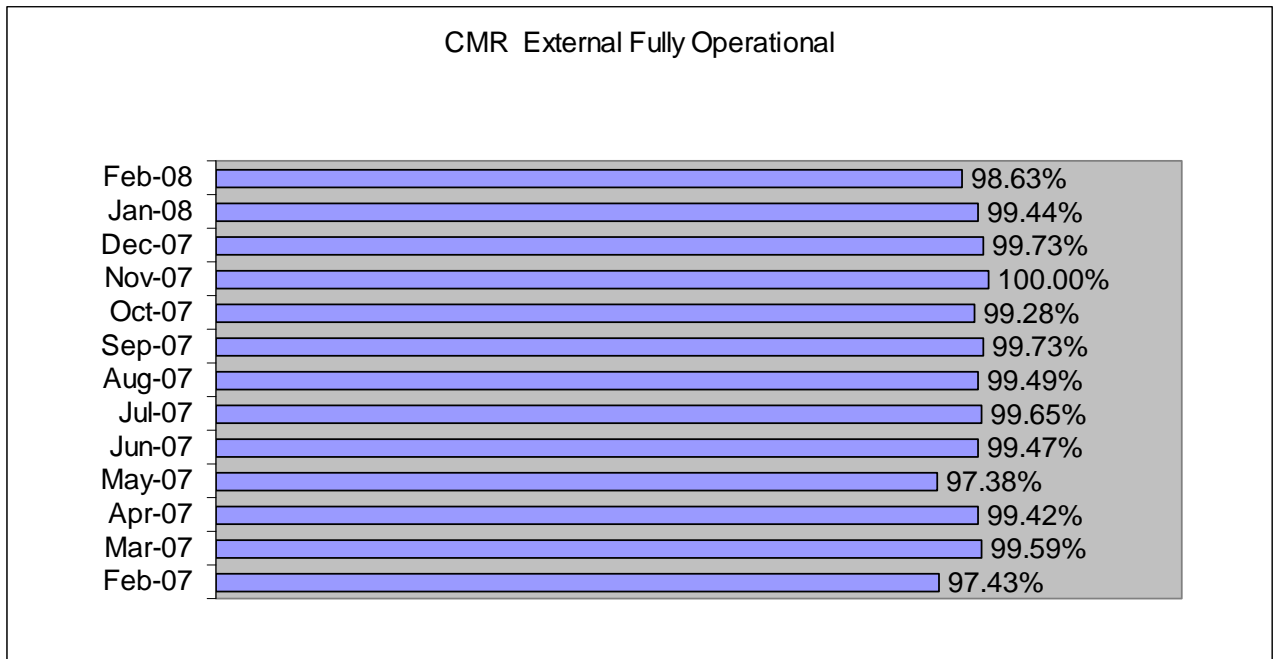

1.3.2 Service Available - Key Systems

For details of Service Issues and Impacts refer to Section 3, page 15.

1.3.3 Service Fully Operational

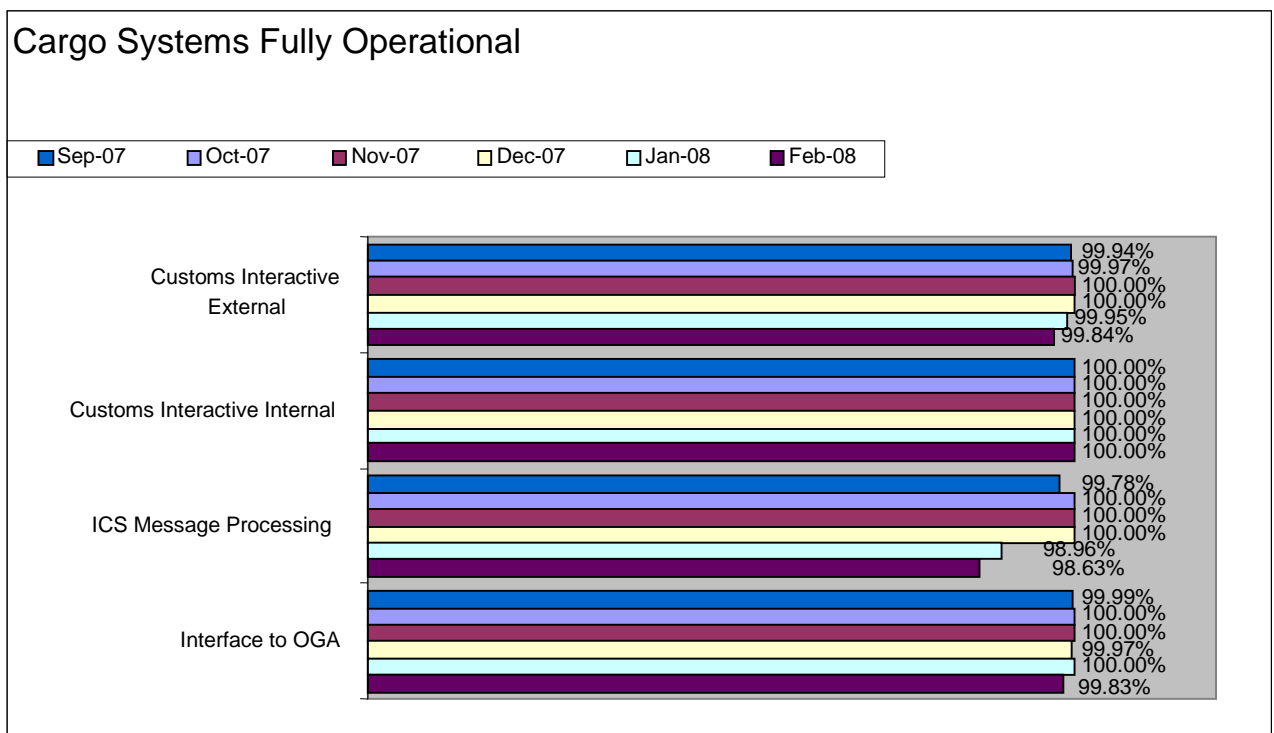

Average operational effectiveness of services for the 12 months 1-Mar-07 to 29-Feb-08 was 99.17%.

The chart above shows the percentage of time the electronic cargo systems were operating at expected performance, with no visible disruption or reduction in expected service for clients.

As an example, a slow down in processing of Customs Interactive or EDI messaging transactions due to a Customs network communications congestion would be treated as not operating at expected performance, even though message processing continued and the service was still available to clients.

1.3.4 Service Fully Operational - Key Systems

For details of Service Issues and Impacts refer to Section 3, page 15.

2 Monthly Detail (Feb 08)

2.1 System Activity

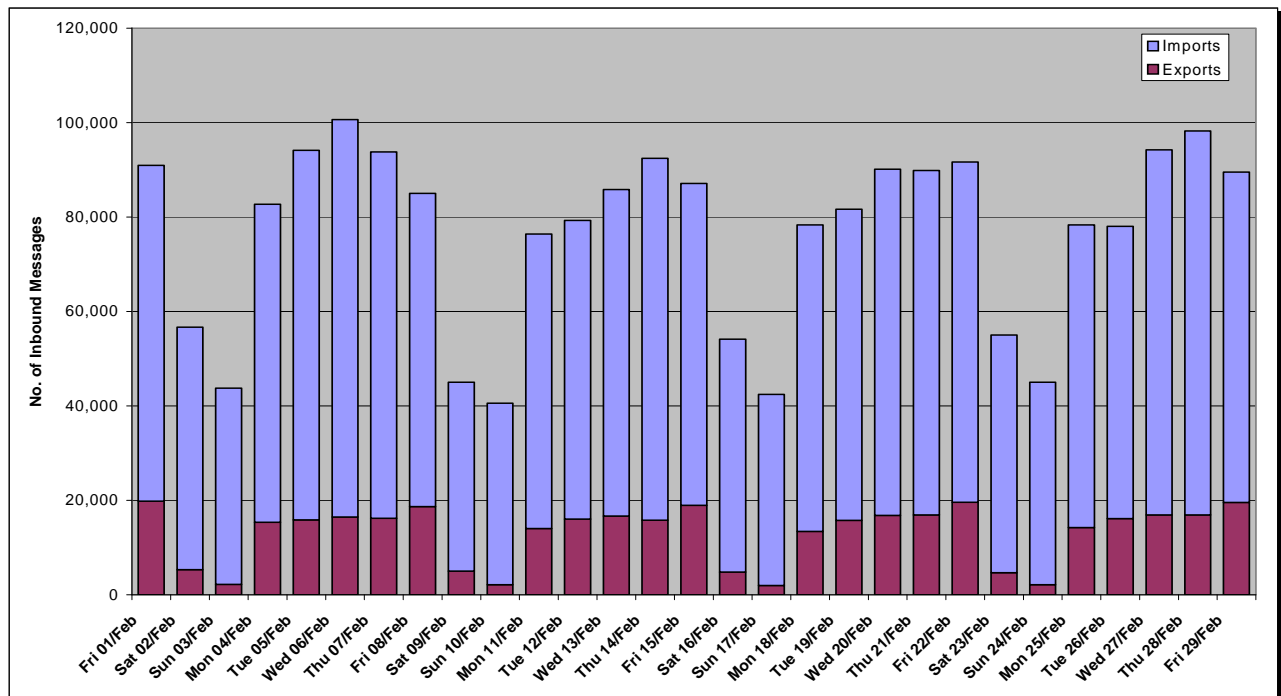

2.1.1 Summary

Fri 01-Feb-08 to Fri 29-Feb-08		Total
Exports	Inbound Messages Received by ICS	378,759
	Outbound Messages Sent to Clients	479,764
Imports	Inbound Messages Received by ICS	1,842,505
	Outbound Messages Sent to Clients	6,226,212

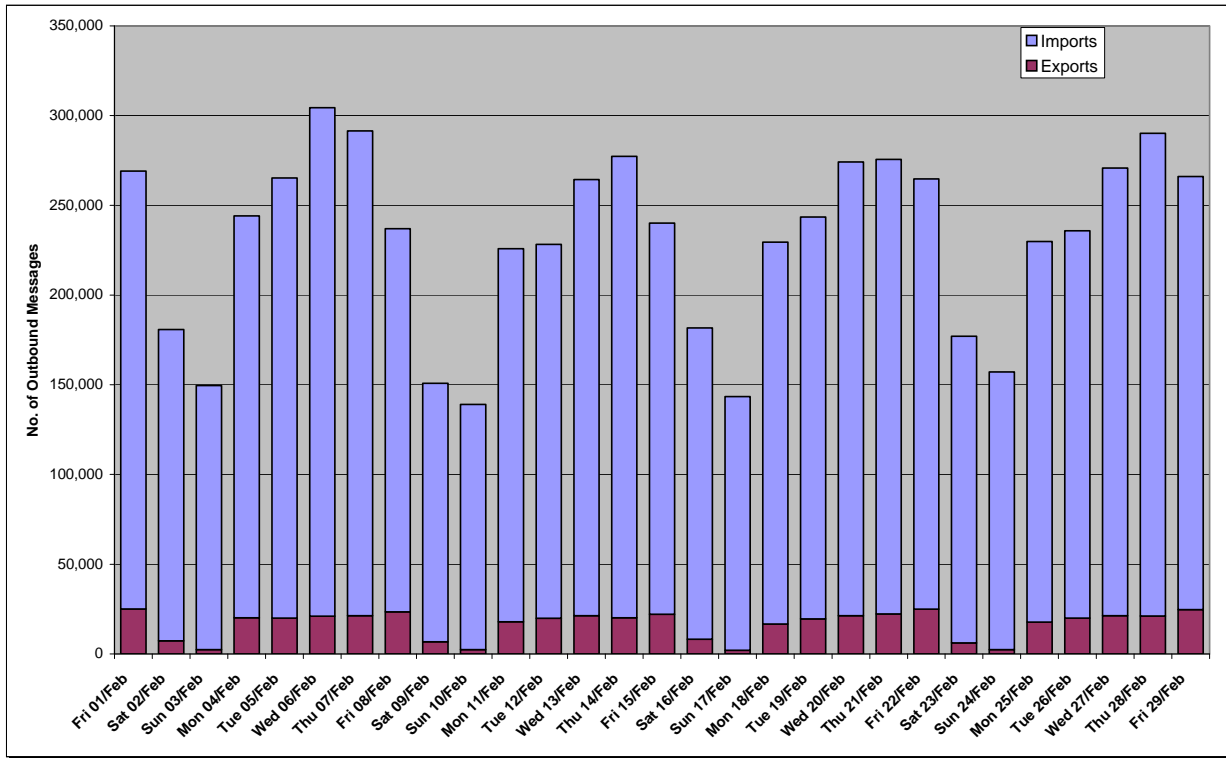

The table above shows activity based on the volume of messages sent by Industry to ICS (Inbound) or sent by ICS to Industry (Outbound), which are counts of messages from the ICS perspective. As such amendments, duplicates, requests for retransmission, etc are included. For example, an inbound Full Import Declaration, which was then amended twice during the reporting period, would appear as 3 Inbound messages.

Request for Status messages submitted by Customs as part of the Heartbeat Monitoring activity (approx. 20,000 messages) are included in the above figures, showing under Exports.

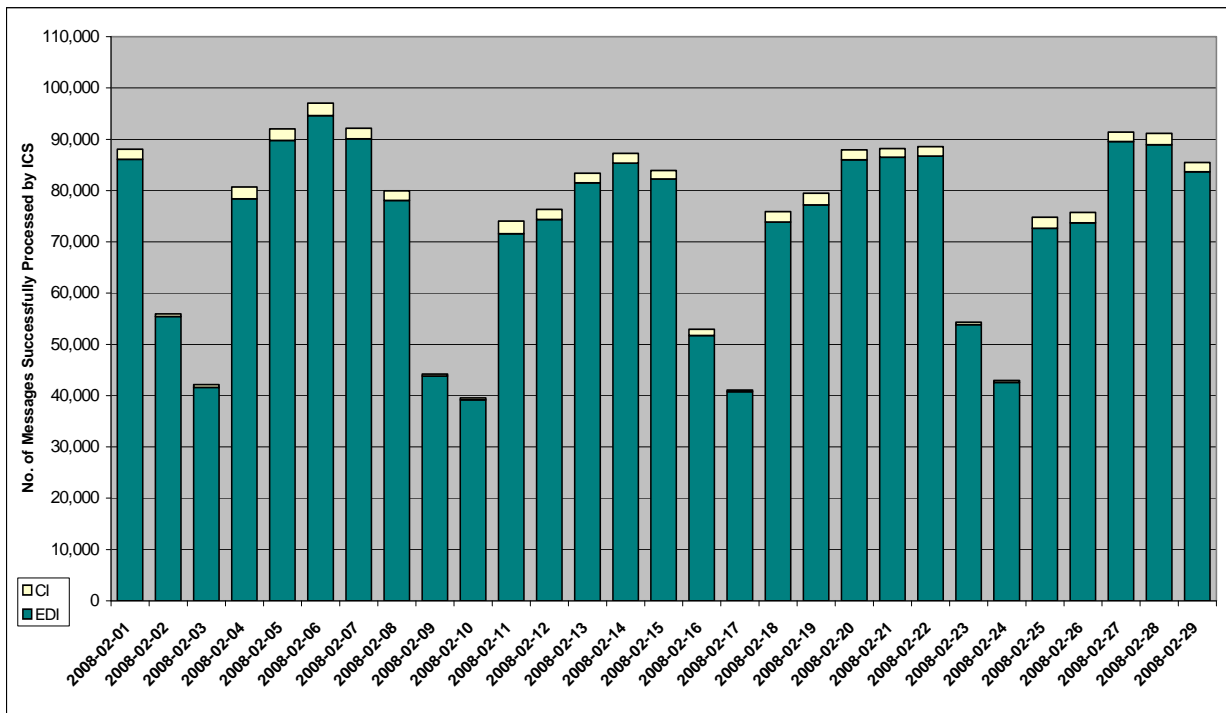

2.1.2 Inbound Message Volume by Day (Feb 08)

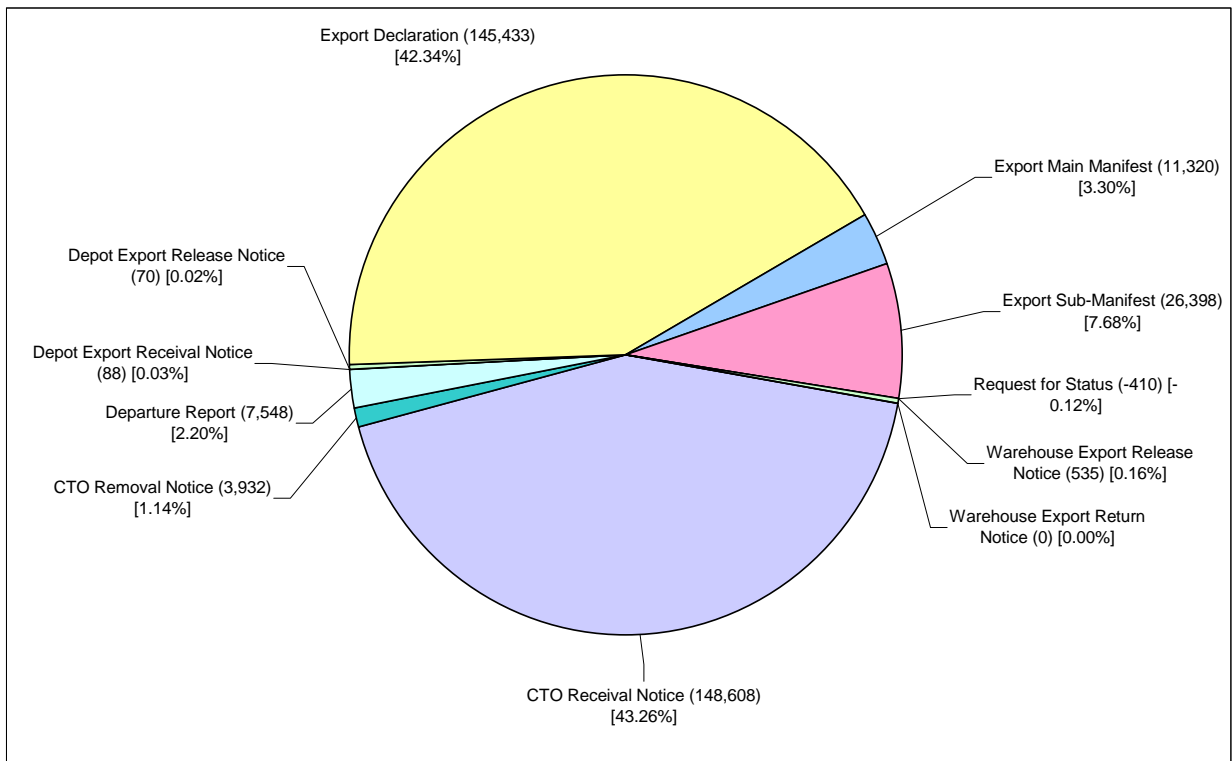

2.1.3 Outbound Message Volume by Day (Feb 08)

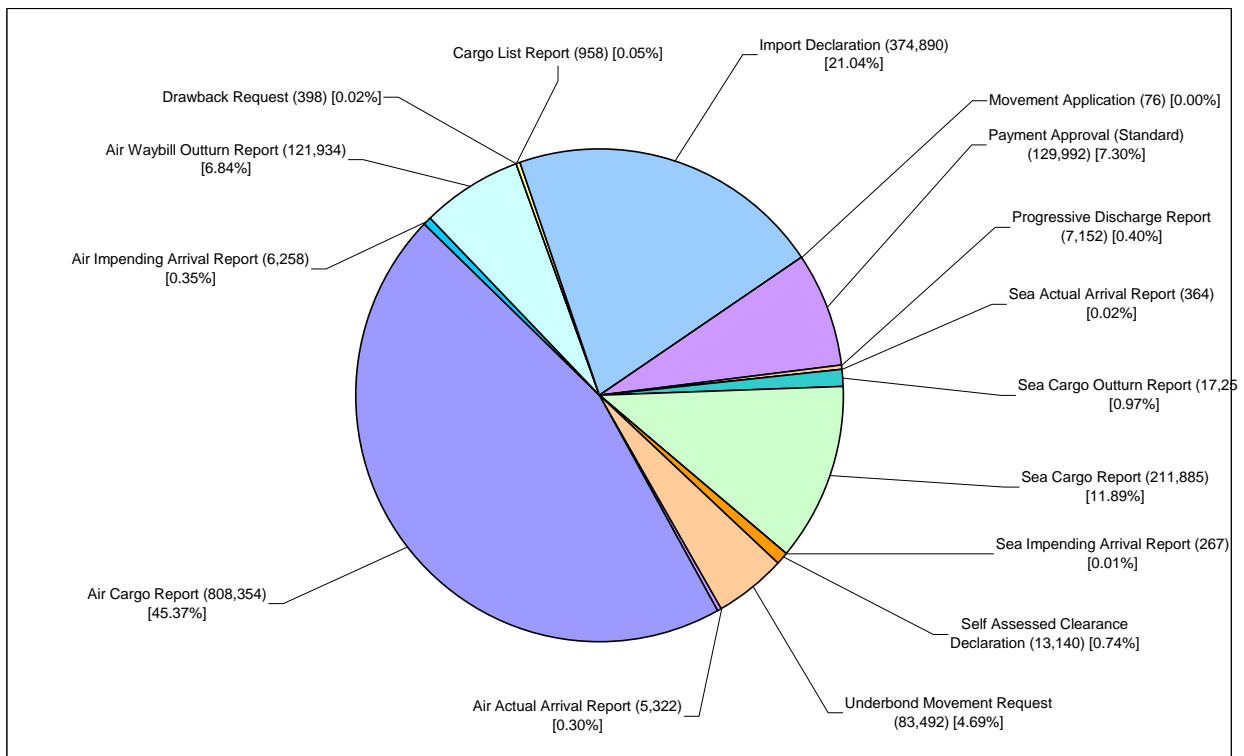

2.1.4 Production - Daily Successfully Processed ICS Messages (Feb 08)

2.1.5 Exports Successfully Processed ICS Messages by Type (Feb 08)

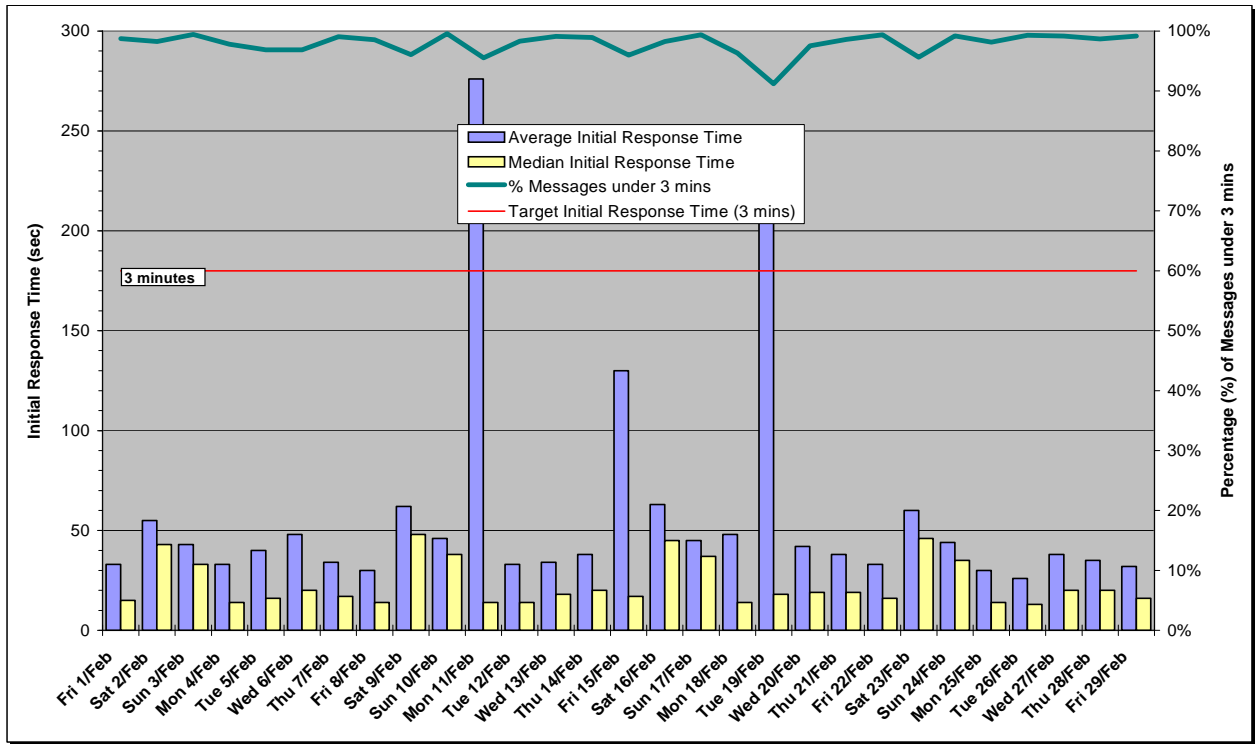

2.1.6 Imports Successfully Processed ICS Messages by Type (Feb 08)

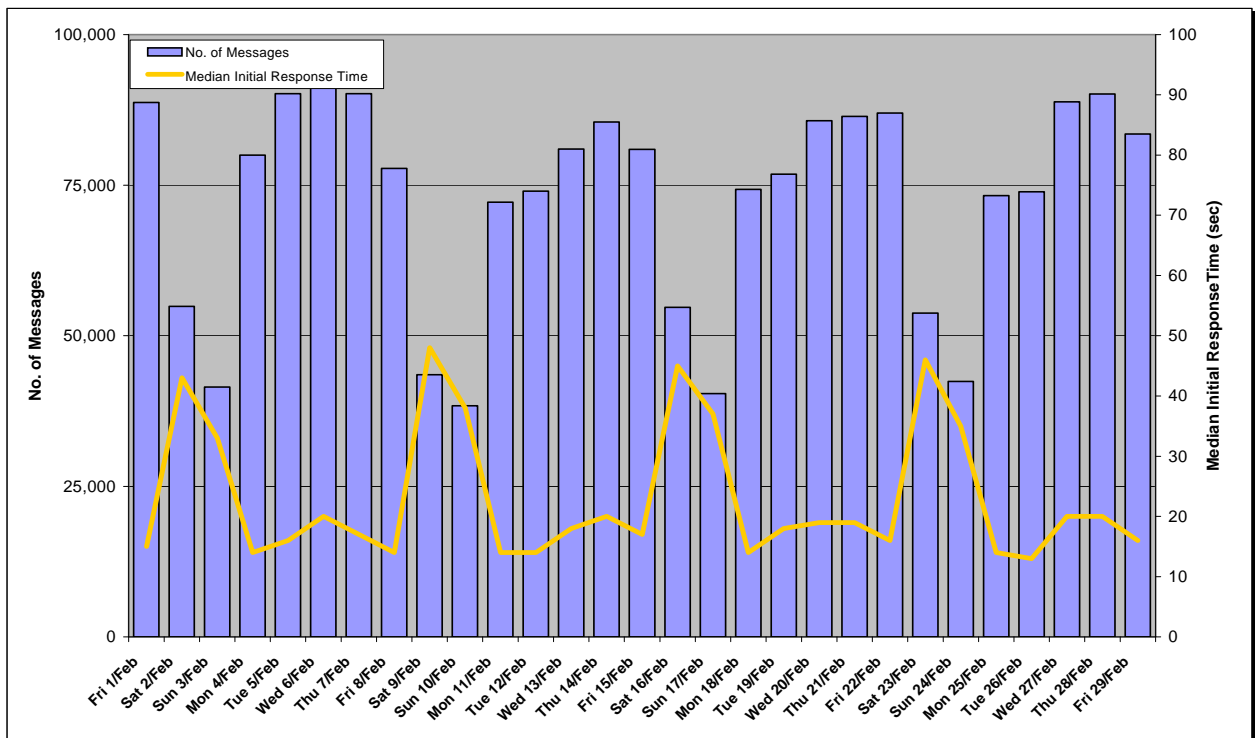

2.2 EDI Message Initial Response Times

2.2.1 Daily EDI Message Initial Response Time (Feb 08)

2.2.2 Daily EDI Message Initial Response Time and Message Volume (Feb 08)

3 Service Issues and Impacts

3.1 Outages

Date	Duration	Description
February 2008		
Monday 11-Feb-08	1 hour 25 mins	EDI messages were delayed for 85 minutes and CI External was unavailable for 30 minutes. This was due to two operators performing identical restart tasks simultaneously during a planned upgrade. Procedures have now been updated to avoid this reoccurring.
January 2008		
Thursday 24-Jan-08	80 minutes	EDI messages were delayed for 80 minutes due to a file system filling up. The file system received a series of exceptionally large files over a four day period as a result of a planned upgrade on Sunday 20-Jan-08.
Wednesday 2-Jan-08	41 minutes	The Customs Integrated Cargo System (ICS) experienced a database fault. This fault resulted in EDI messages not being successfully processed (inbound and outbound) for forty-one (41) minutes from 2:34pm. In addition CI External users were unable to logon to ICS for a period of fifteen (15) minutes from 2:34pm. Users already logged on to ICS were able to continue working and were unaffected. EDI Services were restored by 3.15pm.
December 2007		
None		
November 2007		
None		
October 2007		
Monday 15-Oct-07	3 hours 25 mins	EDI outbound message batching was not functioning immediately following normal scheduled maintenance. During problem rectification, all services (including Customs Interactive) became unavailable following a system restart at 5:30am. All services were fully restored by 6.25am.
Friday 12-Oct-07	1 hour 46 mins	EDI outbound message batching was not functioning from 5pm to 6pm. Industry partners using the service would not have received messages from Customs during this period. During service restoration, all messages sent or received between 6.08pm and 6.41pm were not successfully processed or recoverable. Full EDI messaging service was restored by 6.46pm. Customs Interactive was unaffected during this time.
September 2007		
None		
August 2007		
Mon 27-Aug-07	3 hours 4 mins (excludes outage window from 1-3)	Slowdown of outbound EDI messages from Customs between midnight and 5am. EDI control messages from Customs were not being sent to Industry within the required timeframe resulting in Industry resending business transactions. A reconfiguration to mail relays re-established normal operations.
Wed 15-Aug-07	36 mins	System issues experienced in the early hours of the morning required an urgent restart of mainframe processing at 8:26am to avoid a larger system outage during peak processing times of the day. During the outage all EDI messages were queued for processing following the restart. Customs Interactive was unavailable during the period.
July 2007		
Thu 26-Jul-07	1 hour 2 mins	CCF EDI message processing was unavailable from 5:05am to 6:07 am due to an issue with message logging. Inbound messages received during this time were not queued and industry partners were requested to resend messages from within this period. Outbound messages queued during the outage were cleared by 7:36am using manual resend procedures.
June 2007		
Thu 28-Jun-07	40 mins	Customs Interactive for External clients was not accepting new logins due to a configuration issue. Users currently logged in were able to continue operations. A re-configuration resolved the issue.
Wed 6-Jun-07	23 mins	Customs Interactive for External clients was unavailable due to a connectivity issue. Re-configuration restored service to normal.
May 2007		
Sat 26-May-07	13 hours 45 mins	Customs Interactive for External clients was unavailable due to a service failing to restart following scheduled maintenance activity. EDI messaging and Customs Interactive for internal clients was unaffected.

Date	Duration	Description
Fri 25-May-07	3 hours 24 mins	EDI messaging, Customs Interactive for External and Internal clients was unavailable from 11:33am to 1:47pm due to successive failures in communications equipment units. All EDI messages queued during the outage were processed by 2:10pm.
Thu 24-May-07	1 hour 18 mins	EDI messaging and Customs Interactive for External clients was unavailable from 8:01pm to 9:21pm due to communications equipment failure. EDI messages queued during the outage were processed once services restored.
Wed 16-May-07	15 mins	Customs Interactive for External clients was unavailable due failure of a communications equipment unit.
April 2007		
Thu 26-Apr-07	15 mins	As a precautionary measure, Customs scheduled an extraordinary outage to repair standby communications equipment unit. The fault condition was successfully rectified and no actual outage was experienced.
March 2007		
None		

3.2 Not Performing as Expected

Date	Duration	Description
February 2008		
Tue 26 Feb-08 – Wed 27 Feb-08	2 days	The exchange rate upload and the EDI Exchange rates reference files publication delayed due to problems in the file transfer process. Manual entry of exchange rates were undertaken during this period.
Tue 26 Feb-08	1 hour	Looping ICS transaction caused status checks in both CI and EDI to be unavailable. This resulted in a delay to these messages up to 1 hour during this period. Other transaction types were not affected.
Tue 19-Feb-08	37 mins	Long running ICS underbond transactions caused delays to other messages. Messages were delayed for up to 37 minutes during this period.
Fri 15-Feb-08	6 hours 15 mins	An industry transaction received on Friday evening, 15 February, went into a loop and impacted on other transactions within the ICS. Delays in message processing were experienced until the transaction was stopped. Messages were then processed as per normal and all backlogs were cleared by 2:15am Saturday.
January 2008		
None		
December 2007		
None		
November 2007		
None		
October 2007		
Tue 23-Oct-07	30 mins	Certain reports data was not updated from 3.50pm due to an issue with database log processing for the reporting environment. Service was restored and the backlog of data processed during the subsequent working day.
September 2007		
Mon 24-Sep-07	1 hour 35 mins	Reduced responsiveness of ICS from 3am to 4:35am due to database change difficulties following ICS 8.4.08 Production Release.
Wed 19-Sep-07	20 mins	System issues affecting part of EDI message processing caused delays of up to 20 minutes for approximately 50% of incoming EDI messages.
August 2007		
None		
July 2007		
None		
June 2007		
Wed 27-Jun-07	20 mins	System issues affecting part of EDI message processing caused delays of up to 20 minutes for approximately 33% of incoming EDI messages.
Fri 5-Jun-07	46 mins	Outbound EDI messages were delayed for up to 46 minutes due to a fault in an Internet Service Provider network.
May 2007		
Wed 16-May-07	1 hour 53 mins	Intermittent EDI message delays due to failure of a communications component.

Date	Duration	Description
April 2007		
Mon 23-Apr-07	5 mins	Newly implemented functionality caused performance issues to the Cargo manual clearance process. All cargo cleared automatically was processing normally.
Fri 20-Apr-07	38 mins	A communications equipment unit fault caused delays of up to 38 minutes for EDI messaging.
Thu 5-Apr-07	1 hour 30 mins	System issues affecting part of EDI message processing caused delays of up to 1 hour and 30 minutes for incoming EDI messages.
Wed 4-Apr-07	1 hour 40 mins	Telstra planned configuration changes at their Pitt St exchanged caused a slowdown for all users of the Telstra ISP Network.
March 2007		
None
