CUSTOMS ACT 1901**INTENTION TO REVOKE TARIFF CONCESSION ORDERS**

It is intended to revoke the Tariff Concession Order for the goods described in the following TABLE.

The Chief Executive Officer's (CEO's), delegate has declared the intention, subject to s.269SD(1AB), to make an order revoking the TCO in the table below with effect from Thursday 26 March 2015. On 23 February 2015, the CEO's delegate formed the belief in respect of the TCO, that if the TCO was not in force on that day, and an application for the TCO was made on that day, the CEO would not have made the TCO.

That is because the TCOs are considered to be unnecessary. A TCO is considered to be unnecessary if the goods covered by that TCO can be imported under another, often more recent, TCO that often covers a broader range of goods.

Importers and customs brokers will not be disadvantaged by the revocation action, as TCOs will continue to apply to the same range of goods. Before attempting to use a TCO, an importer or customs broker should check the list of concessional instruments to ensure that the TCO still exists.

Interested parties are invited to provide, by close of business Wednesday 25 March 2015, written reasons why the TCOs should not be revoked.

Contact: email tarcon@customs.gov.au , fax 02 6275 6376 or telephone 02 6122 5540.

For information on these Customs initiated revocations see Australian Customs Notice (ACN) 2003/68 available for free on the Customs and Border Protection website:

NOTICE OF DETERMINATIONS MADE UNDER PART XVI OF THE CUSTOMS ACT 1901

Under subsection 273B(2) of the Customs Act 1901, notice is hereby given of the making of Determinations applying to goods of a kind specified in the table below.

In the table:

(i) the first column specifies the kind of goods to which the Determination applies, any conditions specified in the Determination, the commencement and cessation dates of the Determination and the Determination reference number;

(ii) the second column specifies the item in Schedule 4 to the Customs Tariff Act 1995 that applies to the specified goods.

Goods ancillary to an EPBS project, including office equipment, buildings, office/personnel accommodation and goods used in activities such as land preparation, road construction and maintenance, transportation (other than pipes, pipelines, conveyors, power transmission lines, flexible flow lines, etc. integral to the project and used to convey gas liquids, minerals, electricity or other materials or goods) and the provision of telecommunications and other general services are excluded. Materials, consumables and construction and servicing equipment, including all fuels, oils lubricants, adhesives, filters, protective garments, tools, ladders (other than articles auxiliary to and designed to be permanently attached to eligible goods under EPBS, such as pylons, supporting structures, staircases, ladders, railings, etc.) paint, varnish and the like are ineligible under EPBS, as are spare parts used for on-going maintenance beyond the commissioning of the project.

EPBS Determinations also apply to all goods listed in the Determination when they are imported in multiple shipments, which may be from different locations at different times.

Where a number of EPBS Determinations are issued for a particular eligible good, all associated Determinations must not exceed the quantity of goods approved by the Delegate in the EPBS Project Eligible Goods List.
