**INTENTION TO REVOKE TARIFF CONCESSION ORDERS**

It is intended to revoke the Tariff Concession Orders for the goods described in the following TABLE.

I, Andrew Mumberson, a delegate of the Chief Executive Officer (CEO), declare my intention, subject to s.269SD(1AB), to make orders revoking the TCO in the table below with effect from 9 March 2012. On 9 March 2012, I formed the belief in respect of the TCO, that if the TCO was not in force on that day, and an application for the TCO was made on that day, the CEO would not have made the TCO.

That is because this TCO was made in contravention of s.269F(3)(a), to the extent that this TCO must contain a full description of the goods to which the application relates. It was found that the good's description was insufficient to accurately identify the TCO goods in terms of full description.

Interested parties are invited to provide, by close of business Wednesday 11 April 2012, written reasons why this TCO should not be revoked. Interested parties may consider applying for new Tariff Concession Orders on the application forms, B443 (updated March 2010) for the goods described below, worded in terms that contains a full description of the goods to which the application relates.
