NOTICE PURSUANT TO SUBSECTION 269N & 269K - REPROCESSING OF TCO APPLICATIONS

Changed Tariff Classifications have been proposed for the Tariff Concession Order applications shown in the TABLE below.

Note that these proposed Tariff Classification changes had been previously incorrectly advertised in the Tariff Concessions Gazette TC 10/34 dated 25 August 2010 under "amended descriptions following an objection" due to a programming error. This further Gazettal notice required under subsection 269N(4) is "in substitution for the notices previously published".

Australian manufacturers who wish to contest the granting of a Tariff Concession Order for the goods described are invited to lodge a submission in writing in an approved form. There is no approved form for an objection to only Tariff Classification changes, however any written relevant submissions may be accepted for consideration. Submissions must be lodged within 50 days of the date of publication of this Notice.

The operative date (Op.) and TC reference number follow the description of goods.

To assist local manufacturers, the use(s) to which the goods can be put follow the description of goods.

Submission forms are available from Custom Houses throughout Australia or on the Customs web site www.customs.gov.au.

For guidance regarding these reprocessed TCO applications, phone 02 6275 6483, fax 02 6275 6376 or email tarcon@customs.gov.au.
